## SMOOTH IT OVER

You might not necessarily have considered leather as a viable option for covering a wall, but Studioart's selection of soft, stylish hides in tasteful shades and interesting textures may just prompt you to wonder why you never thought of it before.

From matt finishes to shiny surfaces, varying textures and wide selection of colours, the Studioart design team will work with you to make the most of the versatile nature of leather for the benefit of your walls.

## STYLE STATEMENT

This year marks a decade in the business for the innovative company, with a range of exciting collaborations released to celebrate the occasion. With the new X Anniversary Collection, it entrusted three emerging designers to reinterpret its signature leatherwall. This example – called Delta Polis laguna, Watersuede 32 – was created by Yan Ling Ng of The Fabrick Lab. ■
